INDEX TO VOLUME XXXV

Authors, Titles and Subjects

Acetylcholine and depression, 458 (abstr)
Achievement motivation, relationship of serum uric acid to, 13–22
Ader R: *see* Friedman SB, Ader R, Grota LJ
Adler Charles S: *see* Budzynski Thomas H, Stoyva Johann M, Adler Charles S, Mullaney Daniel M
Aggressiveness and testosterone measures in man, 453 (abstr)
Agle David P, Baum Gerald M, Chester Edward H, Wendt Miriam: Multidiscipline treatment of chronic pulmonary insufficiency 1. Psychologic aspects of rehabilitation, 41–49
Alpha rhythm
  Percentage maintained during 4- and 12-hour feedback periods, 215–222
  maintenance on subsequent sleep, effect of daytime, 415–418
Amine metabolism in the rat brain, effects of electroconvulsive seizures on, 452 (abstr)
Amphetamine and barbituate, effects of on body experience, 390–405
Anderson DE, Brady JV: Effects of beta blockade on cardiovascular responses to avoidance performances in dogs, 457 (abstr)
———, Brady JV: Prolonged preavoidance effects upon blood pressure and heart rate in the dog, 4–12
Anxiety
  and illness behavior, relationship of life stress and locus of control to measures of, 450 (abstr)
  as a determinant of parent-infant contact patterns, 472–483
Appetite, a new measure of: salivation to the sight and thought of food, 136–142
Asthma
  multidimensional analysis of the subjective symptomatology of, 250–267
  Influence of suggestion and pharmacologic effects of total respiratory resistance in mild asthmatics, 455–456 (abstr)
  the enigma of, 461–463
Atrial fibrillation, learned control of ventricular rate in patients with, 161–175
Autogenic feedback training, preliminary report on the use of in the treatment of migraine and tension headaches, 129–135
Baldessarini RJ, Ebert MH, Lipinski JF: Effects of electroconvulsive seizures on amine metabolism in the rat brain, 452 (abstr)
Ballard PA: *see* Varni JG, Doerr HO, Ballard PA, Shinobu M
Barbituate, and amphetamine, effects of on body experience, 390–405
Baum Gerald M: *see* Agle David P, Baum Gerald M, Chester Edward H, Wendt Miriam
Beamer Virginia, Shapiro Alvin P: Comparison of pressor and adrenergic responses derived from direct and indirect methods of cardiovascular testing, 112–120
Belfer ML: *see* Kotchen TA, Belfer ML, Mason JW
Berens Stephen C: *see* Janowsky David S, Berens Stephen C, Davis John M
Bernstein Paula, Ehde Robert, Campos Joseph: REM sleep in four-month infants under home and laboratory conditions, 322–329
Beta blockade, effects of, on cardiovascular responses to avoidance performance in dogs, 457 (abstr)
Biofeedback
  heart rate training, age and ischemic heart disease related effects on, 456 (abstr)
  EMG, and tension headache: a controlled outcome study, 484–496
Bleecker Eugene R, Engle Bernard T: Learned control of ventricular rate in patients with atrial fibrillation, 161–175
Blood pressure
  and heart rate in the dog, prolonged preavoidance effects upon, 4–12
  black-white male, socio-ecological stress, suppressed hostility, and skin color: Detroit, 276–296
  response in the rat to footshock, location of mediating C.N.S. neurones, 447–448 (abstr)
  response and recognition in hypertensives, effect of instruction and relaxation on, 456–457 (abstr)

Book Reviews:
  Cancro Robert: The Schizophrenic Syndrome: An Annual Review, *reviewed by* Robert Cserr, 89
  Castelnuovo-Tedesco Pietro: Psychiatric Aspects of Organ Transplantation, *reviewed by* James L Titchener, 179

Pages 1–90, Jan.–Feb.; 91–182, Mar.–Apr.; 183–274, May–June; 275–366, July–Aug.; 367–460, Sept.–Oct.; 461–550, Nov.–Dec.

Campos Joseph: *see* Bernstein Paula, Emde Robert, Campos Joseph
Cancer
  Psychological and life experience differences between Israeli women with cancerous and benign breast tumors, 459 (abstr)
  patients, advanced, organic factors and psychological adjustment, 484–496
Carbon dioxide sensitivity and personality, 155–160
Cardiac morphological and electrocardiographic changes associated with environmental stress in squirrel monkeys, 361–364
Cardiovascular
  testing, comparison of pressor and adrenergic responses derived from direct and indirect methods of, 112–120
  responses in dogs, effects of beta blockade on, 457 (abstr)
Carroll BJ: Psychoendocrinology of depression vs. schizophrenia, 458 (abstr)
Carter Douglas: *see* Tennes Katherine, Carter Douglas
Catecholamine metabolites, urinary excretion of by patients with severe agitated and retarded depression, 452–453 (abstr)
Chape Catherine: *see* Harburg Ernest, Erfurt John C, Hauenstein Louise S, Chape Catherine, Schull William J, Schork MA
Chester Edward H: *see* Agle David P, Baum Gerald M, Chester Edward H, Wendt Miriam
Clarkin John: *see* Shapiro Arthur K, Shapiro Elaine, Wayne Henriette L, Clarkin John, Bruun Ruth D
Clausen Jerry, Fisher Seymour: Effects of amphetamine and barbiturate on body experience, 390–405
C.N.S. neurones, location of, mediating the blood pressure response of the rat to footshock, 447 (abstr)
Cobb Leonard A, Ripley Herbert S, Jones John W: Free fatty acid mobilization during suggestion of exercise and stress using hypnosis and sodium amytal, 367–374
Cobb S, Kasl SV, Roth TL, Brooks GW: Urinary

Pages 1–90, Jan.–Feb.; 91–182, Mar.–Apr.; 183–274, May–June; 275–366, July–Aug.; 367–460, Sept.–Oct.; 461–550, Nov.–Dec.

norepinephrine in men whose jobs are abolished, 459 (abstr)
Cochrane C: *see* Mendels J, Frazer A, Schless A, Cochrane C
Cohen Frances, Lazarus Richard S: Active coping processes, coping dispositions, and recovery from surgery, 375–389
Cohn George L: *see* Foster Gordon F, Cohn George L, McKegney Patrick F
Cook Brigitte: *see* Regestein Quentin R., Pegram G Vernon, Cook Brigitte, Bradley Doris
Corley KC, Shiel F O'M, Path MRC, Mauck HP, Greenshoot J: Electrocardiographic and cardiac morphological changes associated with environmental stress in squirrel monkeys, 361–364
Corticosterone, comparison of, to growth hormone and prolactin responses to handling and novel environment in the rat, 447 (abstr)
Cortisol, plasma
levels and behavioral states in early infancy, 121–128
and norepinephrine responses in anticipation of muscular exercise, 406–414
responses to electric shock and avoidance conditioning in the rhesus monkey, 449 (abstr)

Davies Robert K, Quinlan Donald M, McKegney F. Patrick, Kimball Chase P: Organic factors and psychological adjustment in advanced cancer patients, 464–471
Davies TW, Monchaux Cecily de: Mood changes in relation to personality and the excretion of 3-methoxy-4-hydroxy-mandelic acid, 205–214
Davis JM: *see* Janowsky DS, Davis JM, El-Yousef MK, Sekerke HJ
———: *see* Janowsky David S, Berens Stephen C, Davis John M
Dekirmenjian H: *see* De Leon-Jones F, Maas JW, Dekirmenjian H
———: *see* Redmond Jr. DE, Maas JW, Dekirmenjian H, Schlemmer Jr. RF
De Leon-Jones F, Maas JW, Dekirmenjian H: Urinary excretion of catecholamine metabolites by patients with severe agitated and retarded depression 452–453 (abstr)
Denial, quantitative, and home hemodialysis success: implication for psychotherapeutic intervention, 451 (abstr)
Depression
electrolyte transport systems in: A possible abnormality, 451–452 (abstr)
urinary excretion of catecholamine metabolites by patients with severe agitated and retarded, 452–453 (abstr)
thyrotropin releasing hormone (TRH) in, 457–458 (abstr)
acetylcholine and, 458 (abstr)
vs. schizophrenia, psychoendocrinology of, 458 (abstr)
Diazepam, effects of, on human pain tolerance and pain sensitivity, 330–340
Disease
personal theories of, as determinants of patient-physician relationships, 184–186
integrated theory of: Ladino-Mestizo views of disease in the Chiapas Highlands, 223–239
Docherty John P: *see* Luborsky Lester, Docherty John P, Penick Sydnor
Doerr HO: *see* Varni JG, Doerr HO, Ballard PA, Shinobu M
Dream
psychophsiological parallels in, 297–308
Does sleep behavior appear in the dream? 450–451 (abstr)
Dreaming, and sleep, luteinizing hormone, follicle stimulating hormone, and growth hormone secretion in normal adult men during, 309–321

Early maternal separation, infant rats, role of nutrition in the physiological and behavioral effects of, 3501–359
Ebert MH: *see* Baldessarini RJ, Ebert MH, Lipinski JF
Edwards JA: *see* Meyer-Bahlburg HFL, Boon DA, Sharma M, Edwards JA
Eichelman BS: *see* Williams RB, Richardson JS, Eichelman BS
Electrocardiographic and cardiac morphological changes associated with environmental stress in squirrel monkeys, 361–364
Electrolytes
mood, and weight during menstrual cycle, correlations between: a renin-angiotensin-aldersterone hypothesis of premenstrual tension, 143–154
transport systems in depression: a possible abnormality, 451–452 (abstr)
El-Yousef MK: *see* Janowsky DS, Davis JM, El-Yousef MK, Sekerke HJ

Hofer MA, Processes mediating the altered behavior of maternally deprived rat pups, 447 (abstr)
———: *see* Leigh Hoyle, Hofer Myron
———: The role of nutrition in the physiological and behavioral effects of early maternal separation on infants rats, 350–360
Hormone
luteinizing, follicle stimulating, and growth hormone secretion in normal adult men during sleep and dreaming, 309–321
growth, corticosterone, and prolactin responses, comparison of to handling and novel environment in the rat, 447 (abstr)
growth, plasma, free fatty acids and heart rate in humans during transient changes in psychologic state, 449 (abstr)
thyrotropin releasing hormone (TRH) in depression, 457–458 (abstr)
Hypertension
research, what's the payoff in?, 1–3
Personality and, 50–56
17-hydroxy steroid excretion in patients with essential, 455 (abstr)
Effect of instruction and relaxation on blood pressure response and recognition in hypertensives, 456–457 (abstr)
Hypnosis and sodium amytal, free fatty acid mobilization during suggestion of exercise and stress using, 367–374

Illness behavior, and anxiety, relationship of life stress and locus of control to measures of, 450 (abstr)
Infancy
early, plasma cortisol levels and behavioral states in, 121–128
REM sleep in four-month old infants under home and laboratory conditions, 322–329
Role of nutrition in the physiological and behavioral effects of early maternal separation in infant rats, 350–359
Processes mediating the altered behavior of maternally deprived rat pups, 447 (abstr)
Anxiety as a determinant of parent-infant contact patterns, 472–483
Pre-weaning period in rats, behavioral and physiologic effects of littermate removal on the remaining single pup and mother during, 497–508
Inflammatory bowel disease, patients and their healthy siblings, personality differences between, 91–103

Janowsky DS, Davis JM, El-Yousef MK, Sekerke HJ: Acetylcholine and depression, 458 (abstr)
